Executive Director Derrik Robinson of Freedom from Covert Harassment and Surveillance wrote this letter in my support, and he is making himself available to provide more information.

The abuse from the State of Oregon and US Department of Justice has been going on now for over 5 years. I experience daily electronic assaults, rapes, and have brain and muscle damage from this abuse. I have high CK in my blood now per my doctor, Bill Walter, which is from muscle and brain breakdown from this.

The only thing that will stop this is an injunction and criminal investigation into what they've done to me.

Complete with NSA whistleblower discussing using space capability to go after citizens, patents, bill to ban, and more ..

Cathy Meadows, M.A., Clinical Psychology, Expert on Whistleblower Retaliation and Surveillance has her report on my website from 8/22/2013, confirming her belief in my abuse. With no psychosis or delusion.

This is ongoing abuse that is 24/7, and they want me dead and unable to talk about the scandal and what they did.
