So .. [https://en.wikipedia.org/wiki/USIS_\(company\)](https://en.wikipedia.org/wiki/USIS_(company))

That's the government contractor who the witness worked for. She says the technology exists, she said they had information there that said it existed, she saw it and they talked about it.

These guys are big. She tells me they will charge her with treason for disclosing anything else. She has told me about concerns for her family for why she prefers us to locate another witness.

She says, I am the first person she ever came across outside of their place that knew about it. That means I matched the description of it entirely. I got the recordings of our convos.

I am telling you, this is no conspiracy. They are using it everywhere in secret. I am being victimized, because I know everything and because I tried to expose it in 2008. If I fight, they hurt me more.. they, are going to kill me if you don't act. I cannot hardly.. do anything else. I did it all right, it is everyone else who lied or fucked up. I have always been a good person, they set me up, and did all this to me. Ruined and sabotaged my life.

Please Andrew, .. I am badly hurt, please act to protect me. These are crimes being committed against me by everyone. Local police, city officials, DAs office, and courts. There is nothing to do but expose this to the media, file a lawsuit for my protection, get this abuse stopped. They would kill and rape a person to keep their crimes a secret, you are dealing with dirt and corruption.

They are watching you and harass me all day over your inactions. You got no privacy, I got no privacy. They love to torment me and use what you say against me. They're laughing at me because you believe you're supposed to use a mental health defense, and this is all going on for real. Everytime you said you were not for me, or gave hint you would not help.. they used it to hurt me, make me think it would be the same as before and noone was going to help. They broadcast these emotions, thoughts, and communications to dominate me, lay there and rape my balls and hurt me repetively on purpose. Knowing before, you were not going to help, and those before you sabotaged my case. I have been forced to be patient through torture, living day to day having my brain and body destroyed, and forced to endure.

I can bring in the recorded .aac files of the witness convos.

It is your duty to assist me.

Looks like USIS is a government contractor .. just like she said, with knowledge of this technology being used on people. The agency does background checks and investigations on people for the government. Maybe they even spy on those investigated, use the governments security measures for their work? Maybe they know nearly every secret of the US government because of their close ties. They even did the Edward Snowden background "check" for the government.

Like Booz Allen works for the NSA, and does work for them, and has access to all their stuff. Which is how Snowden got access to all the NSA documents, through his contractor and his ties at Booz Allen.

Todd Giffen

<http://www.oregonstatehospital.net/d/russelltice-nsarnmebl.html> she says this is all real. She confirmed it. That means they're using it today... just like I said.
