So I am gunna submit to the court damaging information to get you forced off the case.

I have dozens of witnesses and pieces of evidence you haven't touched, and I think you're in conspiracy to murder me with your pussy ass shit. I intend to sue you too, so obviously you got an interest in covering shit up which is a conflict of interest between us. My injuries include damage to my heart, brain, confirmed diagnosis of various internal injuries. For months you sat on your ass and fought me, and deliberately withheld services while I got hurt (both you and Sam).

So maybe both you and the court are in cahoots. Like many attorneys in town, I bet you know all about my abuse, too. I think I saw you in 2010 in court with an attorney paid to help the state with this business of cover up, margaret megenis, so why aren't you all working together to cover this shit up?
