

NSA Whistleblower Russell Tice and the disclosure of Remote Neural Monitoring, Remote Brain Stimulation, Electronic Brain Link, and remote microwave torture weapons.
nsa.pdf attached below!!

Or view it online: <http://www.oregonstatehospital.net/d/nsa.pdf>

This is some information regarding the new powerful weapons and spying technology possessed by the US government. Attached is some information about NSA Whistleblower Russell Tice, and the remote neural network system he was alleged to have been ready to testify about before the US Senate Committee before it was canceled. Basically, Russell Tice had talked about some of this to the media and some news list somewhere, and this has pretty much been fully confirmed. This system, Electronic Brain Link, is in use everywhere, by police, FBI, CIA, NSA, and state personnel. They see and hear through walls, spy on people, monitor all brain and thought, they can see what you see, hear, feel think, and more, dreams, subconscious and conscious dreams all observed. I first found out about this in 2008, while a patient at Oregon State Hospital during the US DOJ investigation. They had brought in this technology, the state, or US DOJ, and I was being spied upon. They used it to sabotage me and keep it quiet, it does more than allow spying, it also allows remote nerve and brain stimulation, and things to be done through the walls to your environment and body. This includes heating, chilling, and expanding and pushing and moving objects and atoms around. They can simulate psychosis, and neutralize people, and or other acts of torture, experimentation, etc. When I caught staff on camera with audio recordings in 2008, talking about the technology they had outside of the building to do all this, they attempted to murder me to control the situation. Sure, there were many other incidents that made me a target, I mean, the states lack of liability insurance was a key motivation, the Bonita Tucker scandal was being covered up, etc. The state wanted to hide staff crime so they could build the new hospital without interference from the public or US DOJ. This woman Bonita Tucker, had sexually abused me, gotten romantically involved with other patients, multiple staff aided in smuggling her boyfriend David Anderson bolt cutters, and he and another patient escaped by cutting through the fence at OSH, where an escape car was waiting, driven by an ex-staff member. And Bonita Tucker waited at the get away house for David, but David got left behind. According to police reports, she said "where is David?!" at the house when Gino and the ex-staff member showed up without him. Her plan was to run off and protect David in Texas, and get married. I had reported all this over a year earlier, and staff and the state hid it; I was a target for set up and abuse. After the escapes, Bonita wasn't arrested or fired, and the state tried to protect her and hide the situation. It was a good old fashion cover up, until the newspaper the statesman journal got involved, and published a story. Then, later, she got caught smuggling in morphine and amphetamine, and they busted her, but hid my case, and my abuse. Staff members stole legal notes on 48B, they read about how Bonita touched me, and I overheard conversations. "why did they hide his case? they think the state lacks liability insurance, the notes are too incriminating, and the judge already made his decision" - the state went into court and helped Bonita get off, by hiding most of the details of her abuse and misconduct, and arranged to have her look like an innocent victim. Staff were going crazy over it, and partly, because I had become a target for abuse and harassment, and they had brought in this technology to illegally spy on me and monitor me. They used it to try to disprove that I had ADHD, and set me up to look psychotic and paranoid, they ramshacked legal paperwork and more - they allegedly had recordings of me masturbating in the shower, they had recorded it through the walls. Or just made it up - they were trying to attack me. I'd walk around the hospital, and they'd refer to me as the

stalker. "what a coincidence, it's the stalker" - she claimed I manipulated her and was a stalker to get out of trouble and frame me, that was Bonita. The staff all knew it was false, it was to abuse me and hide it all. When I had caught the staff on tape talking about this technology, it was a hospital wide thing, they tried to murder me: in August 2008, I heard in my hospital bed, it was beamed into my head with remote nerve stimulation techniques - "like you spy for the Statesman Journal, De Ann Major spys for the CIA" "you're being set up to look psychotic" - I felt a flood of microwave energy penetrate my muscles and body, they were trying to blow my body up. I heard and felt computerized microwave sensations directed and moving around my body; they could force me to smile and open my eye lids, they were talking "we're getting tired of staring at your anus" "why don't you die now" - I was convulsing from the shock, and had a 170 pulse, my body was swollen up, I nearly died. Everywhere I went I heard them talking to me, doing things to me as I moved - the computer system tracks you through the walls, and because microwaves move so fast, they have no issue targetting your body or brain as you move. They might say things like "why do your balls swell?" and tingle my balls with microwaves whenever I got around women. It was sexual abuse. For my convulsing and pulsating muscles, they used energy waves to simulate massage, drilling my insides, trying to cover up my injury - and I basically got really hard, stiff, and swollen inside. I was crippled and mutilated. My story goes on further, it was 24/7 remote control, simulated psychosis. And before this, I had nothing but a diagnosis of ADHD and depression, multiple doctors gave me that diagnosis, but now the staff could say what they wanted to hide it - no one was going to incriminate themselves. The governors office, many from the US DOJ were involved, Amanda Marshall, David Deutch, Robert Koch, the state police, this goes up to George Bush and Obama. When I was released from OSH, I had to pretend none of this was going on in 2010, the CIA followed me on the streets, undercover agents keeping control over me. This was no normal gang stalking, but yet they were manipulating me, keeping control over me, they had all of Lane County, Springfield, and Eugene involved. Doctors at Sacred Heart, they were trying to make sure no one gave me a proper diagnosis, and denied me medical care. They continued to use this weapon on me, I was eventually beat up for trying to get away from it. Two Springfield cops who were involved, violently beat me then lied about it, it was part of a plan to try to frame me, get me locked up in prison so that I couldn't get help or tell anyone what was going on. They busted my face up, broke my nose, and teeth. I overheard Officer Grice, who was communicating with someone over synthetic telepathy, that FBI Roberts was upset, a guy in charge of the operation. OSH staff and the police, they can use it to link their minds together, messages can be transmitted by computer directly into a persons mind or body, this synthetic telepathy can also extract information from peoples minds, it's mind reading tech. The NSA calls it Electronic Brain Link - but it has active and passive modes, the sensors can also just stand by and massively monitor all thought and brainwaves from all people, and the computer tracks and sorts all this information, only logging what it wants, or passing on the messages that someone seeks or thinks they want. This is not all the information I have to give, it's just a start... Last bit of details, I was taken to Lane County Jail, where teh Sheiffs participated, I was slaughtered in jail, repeated rapes with the weapon, injuries, forces on my body designed to jam my thought, I have bad brain damage, internal bodily damage, and super tense and swollen muscles, dehydration from microwave exposure, damage to my heart, and more. The deputies at the jail invited the CIA in, and were fully participating in my abuse for two years. Sheriff Thomas Turner, and many of his deputies. I had high CK in my blood, over 700, which I later found out could only be caused by serious brain or muscle injury, like heart attacks or stroke. The jail didn't do anything to help me prove I was being abused and controlled, no MRI or PET scan to confirm or deny injury, they were trying to cover it up. They were all working together and

protecting each other. I just got out last Thursday, I was forced to take a false plea bargain to get out, so I could get medical care, and try to prove this happened. I can provide more details upon your request. I have been diagnosed so far with all the symptoms of post concussion syndrome, and brain stem damage, my muscles are that of a 60 year olds, I say because of microwave exposure and repeated injuries from the weapon - this injury has made my muscle tone very poor, I should be a healthy active 28 year old, instead I am very badly beaten, in poor health, with no other history that could explain my illness. This is because it's all explainable and consistent with microwave and electromagnetic radiation exposure. My attorney's were really bad and did nothing to try to help. I have a website with most details, it's got some links and info, and I have a fundraiser to make money to get by, hire an attorney, and to get medical treatment I need.

I believe that I have in my possession a story that could shock America. I am not the first or only victim of this, and I also know that the NSAs Internet and wire tapping program is nothing compared to their neural monitoring and brain computer link system. I know that this technology works nearly everywhere, it can be deployed and probably is deployed in both satellite and ground based sensor forms - they have versions that have been used on me, which fit in cars, and they follow you around and can keep you in their full control. Any satellite can be engineered to read the brainwaves of people, or animals, or anything else - this energy is simple radiation and emitted radiowaves, any CMOS or remote EEG sensor can read it. They have such a high resolution version, that they can read the impulses in individual nerves, and that is what allows them to know, when the impulses are recombined, what is going on in your body or nervous system. I know the cops have this all over, everyone has access to it, and they're spying on everyone in secret. This is bigger than any other system the NSA or government has, it's their most secret. There is plenty of information available about people being targeted with electromagnetic radiation, simulated psychosis, and gang stalking, agents who target or harass individuals or people of interest. Anyone who finds out about it is in danger, this system needs to finally be exposed. They will go to all cost to keep it secret, they won't tell you a thing about it. But it is being used, and most police and government agents know about it. They will deny or pretend you're sick if you ask about it, but it's all a lie.

My website is: <http://www.oregonstatehospital.net/>

Mind Justice is a humans rights group with a lot of information about this technology and this problem. They have books, citations, newspaper articles, original research, interviews with doctors and neurologists, info on the Russian laws banning this technology, etc.: <http://www.mindjustice.org/>

Dennis Kucinich's bill Space Preservation Act, 2001, 2002, 2005 would have banned or prevented the use of this system. But the US government went against the world, and the bill was derided and never came up for a vote when proposed on 3 different occasions. It details the use of ground, sea, and space based information, psychotronic, electromagnetic and other weapons which can be used to torture, simulate psychosis, read and steal thoughts, and more. Officially, the rest of the world was scared in 2000 by the idea of "intellectual property theft" and information terrorism, so many countries riled behind a ban. Russia is the country with the greatest and most public work done in this area, and there are a few others. The US refused to comply with any sort of treaty, apparently because they saw value in maintaining and having access to this technology. The bill is comprehensive:

<http://www.fas.org/sgp/congress/2001/hr2977.html>

Mind Games is an article in the Washington Post about victims and targets of abuse like this: I believe a good amount of these people are legit, the government is seriously targeting more and more people with this every day. And the targets are forced to live with it, because no one will do anything to stop it. The deal with the government, is that everyone is already involved; the police and FBI don't act to enforce the rules or law because they're already involved and using this technology everyday themselves. They won't expose a critical part of the system, or any crime they've committed by using it. I am the governments scapegoat for trying to expose this.. at OSH I caught the state/US DOJ/CIA using this on me, on camera with audio recordings in 2008, during the US DOJ investigation. They neutralized me, attempted to murder me in my hospital bed with this weapon. Since I have been followed by undercover agents everywhere, they are using this weapon on me, and everyone's involved. Local police, sheriffs, state police, FBI Agent Roberts is the name of one guy in charge. I have very badly damaged brain and body, and I sit in an electromagnetic field, an unlawful prison, for going against these people. Please help..

<http://www.washingtonpost.com/wp-dyn/content/article/2007/01/10/AR2007011001399.html>

Dr. Carole Smith, using light invasive technology to read brainwaves, invade and control the mind: She's an expert on mind control, and psychiatric malpractice, and has created a whitepaper on the need to revise the diagnostic criteria for psychosis. Psychosis is a diagnosis the government hides behind when they target or torture someone. Basically, all the effects of psychosis can be simulated with a weapon, and the diagnosis currently lacks clarity or insight into what these weapons are or what psychosis really is, which means when abuse or a government weapon is involved, it is too easy for a person to receive a false diagnosis which makes it easy for the government to hide abuse, or neglect or hurt a person:

Is the NSA Conducting Electronic Warfare On Americans?

Jonas Holmes May 19, 2006 CHRONICLE ARTICLE

Russ Tice, former NSA intelligence officer and current Whistleblower, was to testify before the Senate Armed Services Committee this week. Apparently the testimony, Mr. Tice wanted to give, makes General Hayden's phone surveillance program look like very small potatoes. Mr. Tice's testimony is expected to reveal further illegal activity overseen by General Michael Hayden which even loyal and patriotic NSA employees view as unlawful. I think the people I talk to next week are going to be shocked when I tell them what I have to tell them. IT'S PRETTY HARD TO BELIEVE, Tice said. I hope that they'll clean up the abuses and have some oversight into these programs, which doesn't exist right now. According to Mr. Tice, what has been disclosed so far is only the tip of the iceberg. What in the world could Russ Tice be talking about! To figure it out let us take a look at Russ Tice's work at the NSA.

According to the Washington Times and numerous other sources, Mr. Tice worked on special access programs related to electronic intelligence gathering while working for the NSA and DIA, where he took part in space systems communications, non-communications signals, electronic warfare, satellite control, telemetry, sensors, and special capability systems. Special Access Programs or SAPs refer

to Black Budgets or Black Operations. Black means that they are covert and hidden from everyone except the participants. Feasibly there would be no arena with a greater potential for abuse and misuse than Special Access Programs. Even now Congress and the Justice Department are being denied the ability to investigate these programs because they don't have clearance. To put it in CNN's Jack Cafferty's words a top secret government agency, the NSA, the largest of its kind in the world, is denying oversight or investigation by the American people because investigators lack clearance. To add a layer of irony to the Black Ops cake this travesty is occurring in America, the supposed bastion of Freedom and Democracy, which we are currently trying to export to Iraq.

It just gets scarier. The Black Ops that Mr. Tice was involved in related to electronic intelligence gathering via space systems communications, non-communications signals, electronic warfare, satellite control, telemetry, sensors, and special capability systems. For greater insight as to the impact of these programs readers should review decades old FOIA authenticated programs such as MKULTRA, BLUEBIRD, COINTELPRO and ARTICHOKE. Radar based Telemetry involves the ability to see through walls without thermal imaging. Electronic Warfare is even scarier if we take a look at the science. NSA Signals Intelligence Use of EMF Brain Stimulation. NSA Signals Intelligence uses EMF Brain Stimulation for Remote Neural Monitoring (RNM) and Electronic Brain Link (EBL). EMF Brain Stimulation has been in development since the MKUltra program of the early 1950's, which included neurological research into "radiation" (non-ionizing EMF) and bioelectric research and development. The resulting secret technology is categorized at the National Security Archives as "Radiation Intelligence," defined as "information from unintentionally emanated electromagnetic waves in the environment, not including radioactivity or nuclear detonation." Signals Intelligence implemented and kept this technology secret in the same manner as other electronic warfare programs of the U.S. government. The NSA monitors available information about this technology and withholds scientific research from the public. There are also international intelligence agency agreements to keep this technology secret.

The NSA has proprietary electronic equipment that analyzes electrical activity in humans from a distance. NSA computer-generated brain mapping can continuously monitor all the electrical activity in the brain continuously. The NSA records and decodes individual brain maps (of hundreds of thousands of persons) for national security purposes. EMF Brain Stimulation is also secretly used by the military for Brain-to-computer link. (In military fighter aircraft, for example.) For electronic surveillance purposes electrical activity in the speech center of the brain can be translated into the subject's verbal thoughts. RNM can send encoded signals to the brain's auditory cortex thus allowing audio communication direct to the brain (bypassing the ears). NSA operatives can use this to covertly debilitate subjects by simulating auditory hallucinations characteristic of paranoid schizophrenia. Without any contact with the subject, Remote Neural Monitoring can map out electrical activity from the visual cortex of a subject's brain and show images from the subject's brain on a video monitor. NSA operatives see what the surveillance subject's eyes are seeing. Visual memory can also be seen. RNM can send images direct to the visual cortex, bypassing the eyes and optic nerves. NSA operatives can use this to surreptitiously put images in a surveillance subject's brain while they are in R.E.M. sleep for brain-programming purposes. Individual citizens occasionally targeted for surveillance by independently operating NSA personnel

NSA personnel can control the lives of hundreds of thousands of individuals in the U.S. by using the NSA's domestic intelligence network and cover businesses. The operations independently run by them can sometimes go beyond the bounds of

law. Long-term control and SABOTAGE OF TENS OF THOUSANDS OF UNWITTING CITIZENS by NSA operatives is likely to happen. NSA Domint has the ability to covertly assassinate U.S. citizens or run covert psychological control operations to cause subjects to be diagnosed with ill mental health. National Security Agency Signals Intelligence Electronic Brain Link Technology NSA SigInt can remotely detect, identify and monitor a person's bioelectric fields. The NSA's Signals Intelligence has the proprietary ability to remotely and non-invasively monitor information in the human brain by digitally decoding the evoked potentials in the 30-50 hz, .5 milliwatt electro-magnetic emissions from the brain. Neuronal activity in the brain creates a shifting electrical pattern that has a shifting magnetic flux. This magnetic flux puts out a constant 30-50 hz, .5 milliwatt electromagnetic (EMF) wave. Contained in the electromagnetic emission from the brain are spikes and patterns called "evoked potentials." Every thought, reaction, motor command, auditory event, and visual image in the brain has a corresponding "evoked potential" or set of "evoked potentials." The EMF emission from the brain can be decoded into the current thoughts, images and sounds in the subject's brain. NSA SigInt uses EMF-transmitted Brain Stimulation as a communications system to transmit information (as well as nervous system messages) to intelligence agents and also to transmit to the brains of covert operations subjects (on a non-perceptible level). EMF Brain Stimulation works by sending a complexly coded and pulsed electromagnetic signal to trigger evoked potentials (events) in the brain, thereby forming sound and visual images in the brain's neural circuits. EMF Brain Stimulation can also change a person's brain-states and affect motor control. Two-way Electronic Brain-Link is done by remotely monitoring neural audio-visual information while transmitting sound to the auditory cortex (bypassing the ears) and transmitting faint images to the visual cortex (bypassing the optic nerves and eyes, the images appear as floating 2-D screens in the brain). Two-Way Electronic Brain Link has become the ultimate communications system for CIA/NSA personnel. Remote Neural Monitoring (RNM, remotely monitoring bioelectric information in the human brain) has become the ultimate surveillance system. It is used by a limited number of agents in the U.S. Intelligence Community. RNM requires decoding the resonance frequency of each specific brain area. That frequency is then modulated in order to impose information in that specific brain area. The frequency to which the various brain areas respond varies from 3 Hz to 50 Hz. Only NSA Signals Intelligence modulates signals in this frequency band.

An example of EMF Brain Stimulation: Brain Area

Bioelectric Resonance Frequency Information Induced Through Modulation
Motor Control Cortex 10 HZ Motor Impulse Co-ordination
Auditory Cortex 15 HZ Sound which bypasses the ears
Visual Cortex 25 HZ Images in the brain, bypassing the eyes
Somatosensory Cortex 09 HZ Phantom Touch Sense
Thought Center 20 HZ Imposed Subconscious Thoughts

This modulated information can be put into the brain at varying intensities from subliminal to perceptible. Each person's brain has a unique set of bioelectric resonance/entrainment frequencies. Sending audio information to a person's brain at the frequency of another person's auditory cortex would result in that audio information not being perceived. Additionally, A 1994 congressional hearing reported that nearly half a million Americans were subjected to some kind of cold war era tests, often without being informed and without their consent. In addition, experimentation law is well grounded in constitutional and international law. It is an under-reported fact that two major reports on human rights and torture in the U.S. recently listed illegal radiation experiments. Many more facts are documented below. Therefore, human

research subject protections should be a high priority and are just as significant as current issues of torture and illegal wiretapping. IT IS TIME FOR AMERICA TO WAKE UP. It is time for America to protect its Whistleblowers who are our last line of defense against dictatorship and despotism. It is time for America to take responsibility for oversight of its tax dollars and elect leaders who will assume such responsibility now. Yes, the war on terrorism is important. It is even more important and fearful if the terrorism is from within and unknowingly funded by hard working American citizens. There is no Special Access Program beyond the oversight of political leaders elected by the people and for the people. If these political leaders jeopardize national security then that shall be handled in a court of law. But to tell America, to tell the American people, to tell the political leaders elected by the American people that America does not deserve to know what happening in the NSA's dark, black rooms, with billions of dollars, behind closed doors, when we know that privilege has already been abused; that is the true definition of TERRORISM. That is the true definition of Communism and a Police State, no oversight. So fellow Americans, you may hem and haw in the face of truth but know that one day you will realize that your country has been USURPED from the very principles upon which it was founded.

Godspeed, Russ Tice, the Patriots are with you.
