Thank you for your response, Merkley, but I didn't see any specific information as it pertained to my original email. Do you believe the US government should have the ability to remotely monitor a persons brainwaves, to see what they see, hear, think, feel, dream, extract any thought or information - or do remotely injure or sabotage a person with remote mind control, energy weapons, or other abuses? Because the information I laid out before pretty much covers that. the NSAs Remote Neural Monitoring, Electronic Brain Link, and Remote Nerve/Brain Stimulation. I want you to review my website very carefully. There is a lot of information out there about mind control, and energy weapons. The FBI, NSA, CIA, DoD, and President Obama all use them. the state and local police have access to these weapons. No one is safe, and according to many sources, there are victims around America, all over, from being targeted, experimented on, or tortured. these weapons were used on me by the CIA and FBI to set me up, to keep me sick, now Obama is using it to slaughter me. every day I am raped, abused with directed energy doing things to my brain and body. don't you have anything to say about that? a lot of the information I provided you, info on Electronic Brain Link/Remote Neural Monitoring, etc, is attributeable to the NSA whistleblower Russell Tice from 2006. this technology, these abuses have been around for decades, traceable back to the 50s and 60s, the CIA worked to engineer and develop a lot of the technologies in use in MKULTRA, when they drugged innocent people with LSD, designed weapons to simulate psychosis, and learned how to remotely tap into the mind with neuro weapons. I would appreciate it if you'd take another look at my website, and my case, and provide emergency response. I believe I am eligible for US assistance as a torture victim, under the Torture Victims act, I have lived under the control of the CIA now for 5 years, and they literally have microwaves penetrating and manipulating my genitals and body right now. my body is badly tense, dehydrated, swollen from exposure. I cannot get help because no one is doing an investigation. I got video evidence of the staff at OSH using this technology during the US DOJ investigation, with the CIA, in 2008. I got the names of tons of police, the governors office, so many people involved in the cover up of what went on. more info on my website here:

FBI email, FBI set me up, is refusing to investigate. FBI agent Roberts, Amanda Marshall, Robert Koch, David Deutche, the Office of the Inspector General, the Attorney General Eric Holder, Jr. all helping to hide my abuse and keep this all a secret.

details in this email here: <http://www.oregonstatehospital.net/d/mass-fbi-media-support-email-6-21-2013.pdf>

Please respond before I die. I have bad injuries, they won't stop injuring me, keeping me sick.. for too long, I have already lost my self, my body is so badly hurt, every neuron, every cell is fucked up. . can hardly think or move, please.. don't kill me, or hurt me any more.

WHY SHOULD THE US HAVE REMOTE HUMAN SABOTAGE OR SPYING CAPABILITY? WHY SHOULD THEY NOT GET CHARGED WITH CRIMES WHEN THEY ARE CORRUPT OR ABUSE PEOPLE? WHY IS THERE NO GOVERNING BODY WATCHING OR ABLE TO ENFORCE THE LAW FOR THE CITIZENS? THE FBI, THEY ARE OUT TO PROTECT THE GOVERNMENT, NOT THE PEOPLE. PLEASE WORK TO CREATE A NEW PUBLIC BODY TO ENFORCE PUBLIC CIVIL RIGHTS AND LAW, FOR WHEN THE GOVERNMENT ABUSES THE PUBLIC AND GETS OUT OF LINE. PLEASE.

Dear Todd,

Thank you for contacting me to express your concerns about the National Security Administration and recent revelations about its widespread surveillance programs. I appreciate hearing from you.

Like you, I have significant concerns about the intelligence community collecting information about Americans' telephone calls, emails, and other records. That is why I was deeply disappointed when the Senate voted to extend without new safeguards three expiring provisions of the PATRIOT Act that allow the government to access medical records, phone calls, emails, and library records. Similarly, I joined 22 of my colleagues in voting against the reauthorization of the FISA Amendments Act that authorized the wiretapping of communications of foreigners who could be communicating with an American citizen, but did not provide sufficient safeguards for Americans' privacy.

While we must undoubtedly provide law enforcement with the tools necessary to keep Americans safe, we must also protect Americans' most fundamental constitutional rights. We can both protect our privacy and also maintain a high standard of national security.

As you may know, I recently introduced the Ending Secret Law Act with Senator Mike Lee (R-UT) that would require the Obama Administration to declassify information about top-secret court rulings that have interpreted what type of spying is allowable under the law. In particular, the highly secretive Foreign Intelligence Surveillance Court has issued opinions interpreting the breath of surveillance allowable under controversial provisions of both the PATRIOT Act and the FISA Amendments Act. This past December, when Congress was considering whether to extend the FISA Amendments Act program for another five years, I offered this idea as an amendment to that legislation before the full Senate. While the amendment was unfortunately defeated, please know I will continue pushing my colleagues to support additional oversight of the intelligence community including the de-classification of these important court rulings.

Thank you, again, for contacting me. I hope you will continue to keep me informed about the issues that matter most to you.

All my best,

Jeffrey A. Merkley
United States Senator
